INDEPENDENT CONSULTANT

Early stage Startups (4 Founders)

Remote Oct 2025 – Present

- Built product prototypes and defined problem statements, turning ideas into clear execution plans.
- Worked on business and financial strategy, including roadmaps and prioritization.

EXPERIENCE

Lead, Strategy and Operations

Zutto Tech | B2B SaaS for shop-floor intelligence Feb 2024 – Oct 2024

- Conducted 12+ process audits across automotive lines; quantified ₹3 Cr/year losses per line from downtime & rework.
- Built 5-year financial model projecting 30–50 % reduction in stoppages, halved TAT, and ₹1.2 Cr savings per line.
- Led client and investor outreach: pitched to 4 OEMs, securing a Letter of Intent within 3 months from a major OEM.

INTERNSHIPS

Research Intern (Data Analytics)

Council on Energy, Environment and Water (CEEW) Oct 2024 – Dec 2024

- Built a geospatial electrification prioritisation model for a municipal bus network - identified 6 high-priority diesel corridors covering >80% high-exposure zones for immediate fleet transition.
- Geo-tagged and visualized 100+ illegal dumps; built dashboards to direct cleanup teams.

Intern

Ministry of Commerce & Industry Jun 2024 – Jul 2024

- Benchmarked AI use-cases in trade logistics; estimated 12–15 % cost savings.
- Authored policy brief which was cited in the draft of Digital Trade Strategy 2025–29.

PROJECTS

Urban Morphology Platform for Indian Cities

Jan 2026 – Feb 2026

- Built v1 of a geospatial analytics platform (currently covering 7 Indian cities), combining a web interface with a SQL-based pipeline for comparative urban analysis.
- Structured the system to compute 45+ urban form metrics across standardized spatial layers, including Connected Node Ratio (CNR), intersection density, building footprint coverage, and percentage of open space.

The Doodler

Personal Project

Oct 2025 – Nov 2025

- Built an audio-reactive generative art engine (p5.js, Meyda.js) exploring digital automatism.
- Blended data-driven design with Dadaist visual philosophy.

EDUCATION

M.A. Economics (Finance & Trade)

Indian Institute of Foreign Trade, New Delhi Aug 2023 – Sep 2025

- Focused on finance, trade, and econometrics.
- Dissertation with distinction on sustainable finance & development.

B.Tech Computer Science Engineering

Mahindra École Centrale, Hyderabad Aug 2014 – Jun 2018

- Built strong foundations in mathematics and algorithms.
- Founded flagship inter-college fest; raised ₹12 L+ sponsorships.

UPSC PREPARATION

Civil Services Examination

Self-Study 2018 – 2023

- Strengthened analytical and structured thinking through multidisciplinary study.
- Learned to break down complex problems, connect ideas across domains, and work with focus and consistency over long periods.

SKILLS & TOOLS

Problem-Solving & Thinking

Problem Framing Hypothesis Analysis Mathematical Thinking
Research Synthesis Written Communication

Technical & Analytical

Comfortable using data & code to make ideas work. Not a hardcore coder but I can vibe-code fairly complex things end-to-end.

Python (Extensive) R (Basic) STATA (Basic) Econometrics
Excel / Advanced Excel HTML / CSS / JS ([inkletlab.com](#))

AI & Productivity Stack

Use AI and agentic workflow tools to research, prototype, and automate faster.

ChatGPT Claude Notion Obsidian n8n

People & Collaboration

Investor / Client Interaction Cross-Functional Collaboration
Team Alignment
